Welcome to Woodlands Forest School's Early Childhood Multilevel Classroom!

We invite you to explore our *unique educational approach* and consider enrolling your child between the ages of three and five in our enriching program.

EARLY CHILDHOOD

About Our Classroom:

At Woodlands Forest School, we prioritize the holistic development of your child. We understand that cognitive, social, emotional, and physical skills are equally important, and we tailor our curriculum to reflect this belief.

Child-Centered Learning:

- We believe in teaching by example rather than direct instruction, encouraging children to learn through experience.
- Playtime is an essential part of our curriculum, allowing children to explore and understand the world around them at their own pace.

Emphasis on Rhythm and Repetition

- We provide a structured environment with regular patterns of activities, both daily and weekly, helping children feel secure and understand the passing of time.
- Seasonal activities and themes are integrated into our curriculum to celebrate the cycles of the year.

Social and Emotional Development

- Our classroom fosters a sense of community, encouraging children to interact, share, and cooperate.
- We place a strong emphasis on caring for the environment, using natural materials and teaching ecological awareness.

Integrated Learning Experience

- Learning at Woodlands Forest School is integrated, not compartmentalized. Math, language, and other subjects are taught in a practical context, making learning relevant to daily life.
- We focus on language development through storytelling and conversation, promoting clear thinking and fluency.

Creative Play and Physical Development

- Creative play supports physical, emotional, and social development, allowing children to learn through exploration, discovery, and imagination.
- Activities like sewing, drawing, and puppet shows promote hand-eye coordination, manual dexterity, and verbal skills.

Love for the Natural World

- Children at our school develop a deep connection to the natural world through outdoor activities and gardening.
- We use natural materials for making toys, fostering an appreciation for nature's gifts.

Safe and Child-Friendly Environment

- Our classroom is warm, welcoming, and artistically designed to encourage creativity and play.
- Mixed-age groups provide a sense of security for younger children, and older ones become role models.

Parental Involvement

- We value a strong partnership with parents, offering parent and child sessions, meetings, and various events to keep families engaged and informed.
