Forest School
INSPIRED BY NATURE

Elementary Program

Igniting curiosity, cultivating excellence

Accredited by Cognia

HÖKKU
— academy —

Welcome to Woodlands Forest School's
Elementary Program, where education takes on a
unique and immersive form, combining:

The essence of Project-Based Learning

The principles of Forest School

The innovation of a state-of-the-art Digital Classroom

And the richness of real-life learning experiences

Our curriculum is meticulously created to ignite the curiosity of young learners, nurture a profound appreciation for the natural world, and establish a strong educational base in the academic field.

Welcome to a learning adventure like no other!

Program Highlights

- **Project-Based Learning (PBL):** Our curriculum revolves around real-world projects that challenge students to think critically, solve problems, and collaborate effectively. PBL empowers students to take ownership of their learning and apply their knowledge in meaningful ways. This pedagogy is centered around the belief that education should focus on fostering a child's holistic development, emphasizing global learning, creativity, and the natural unfolding of a child's innate potential, developing our children's gifts and talents.
- **Forest School Experience:** Nature is our classroom. Students spend time outdoors, connecting with the environment and developing a profound appreciation for the natural world. Forest School principles promote hands-on learning, teamwork, and environmental stewardship.
