

## In our school:

We **LEARN** through play in a formal and informal way.  
We commonly make mistakes, and they are part of our learning.

We are explorers of the world.

We show **COURAGE** to dare to be who we really are and to do what is right, even if it's not always the most popular thing to do.

We are **KIND** to ourselves before anyone else, knowing that we are imperfect beings and worthy of love.

We recognize that only through **COMPASSION** for others can we know what it means to be fully human.

We value being **FULLY PRESENT** to appreciate the big and the small, and we know that **GRATITUDE** transforms us and our surroundings.

We feel **EMPATHY** by listening to each other without judgment and respecting different points of view.

We foster **UNITY** and support each other.

We know that we are creators of our reality and deserve everything we dream of.

In our school, we **LOVE** and support each other.
